

# Cloud Migration

## Custom Transformation for Future Success

### Do you know the Real Value to Migrating to the Cloud?

There are many organizations that can assist in migrating to the cloud. CCSI is unique because we understand the real impact of a cloud migration on all areas of your business and the immense opportunities it brings. Having strong technical expertise is not enough. The real value in the cloud lies in transforming and automating your underlying processes and practices. CCSI is an expert in this.

Many MSP's focus on technology. CCSI has a much more comprehensive approach focusing on transforming the entire organization to succeed in a cloud enabled world.

Experts in aligning cloud strategy to business goals.

Unique combination of **top tier** consulting services and superior operations management experience.

Our staff is made of **real world** practitioners, not just career consultants.

**Cost effective** delivery model with all consulting and operations personnel based in the United States.

Significant consumption based **financial modeling** expertise.

CCSI has over 43 years of experience with technology consulting and operations with thousands of satisfied customers.

CCSI helps companies transform the IT department by implementing customized and holistic cloud solutions. CCSI looks at cloud services from both an IT operations and business process optimization standpoint. CCSI brings over 43 years of expertise in technology driven business transformations for companies across a broad range of industries, educational institutions, and state and local governments.

## Service Overview

## Challenges to Consider

While the benefits of migrating to the cloud are significant, there are considerable associated challenges that should not be underestimated:

### Cost Control

Financial and process controls must be updated or the flexibility and elasticity of the cloud will result in an explosion of costs and loss of budgetary control.

### Security and Compliance

Moving to the cloud changes the attack surfaces and adds complexity to the legal and compliance aspects of your cloud based assets. These challenges require additional controls, technologies, and processes.

### Updated Delivery Model

CCSI's engineers get regularly trained and gain tremendous exposure through a multitude of customer issues on a day-to-day basis.

## Why CCSI?

CCSI provides the highest quality of service in the industry for the full spectrum of technologies—from mainframes to PCs, network infrastructures, managed services, IP telephony and storage solutions. We provide architecture with innovation.

At CCSI, we believe that technology exists to make our lives - and our businesses - simpler, more productive, secure, and ultimately more profitable. Partner with us and discover what sets us apart from the rest.

**We listen, we care, and we respond. Let's Grow Together**
