Newsday Names CCSI a Winner of Long Island Top Workplaces 2019 Award

Bohemia, NY, October 28, 2019 – Contemporary Computer Services Inc. (CCSI), has been awarded a Top Workplaces 2019 honor by Newsday. The list is based solely on employee feedback gathered through a third-party survey administered by research partner Energage, LLC, a leading provider of technology-based employee engagement tools. The anonymous survey measures several aspects of workplace culture, including alignment, execution, and connection, just to name a few.

"The Top Workplaces award is about much more than recognition and celebration," said Eric Rubino, CEO of Energage. "Our research also shows that these organizations achieve higher referral rates, lower employee turnover, and double the employee engagement levels. It just goes to show that being intentional about culture delivers bottom-line results."

CCSI is honored to receive the "Top Work Places" award especially since the results were directly from the feedback our employees provided. We appreciate their opinion and value their honesty, which is why the survey was initially performed. "It's wonderful to learn your employees appreciate the effort the company provides to keep employees engaged and satisfied, between how projects are managed, office benefits, to company celebrations," said CCSI Managing Director, Larry Bianculli.

"Becoming a Top Workplace isn't something organizations can buy," Claffey said. "It's an achievement organizations have worked for and a distinction that gives them a competitive advantage. It's a big deal."

About CCSI
