CCSI Welcomes Cybersecurity Practice Manager, Matthew Pascucci

Bohemia, NY, June 29, 2017 – Contemporary Computers Services Inc. (CCSI) is pleased to welcome cybersecurity industry expert, Matthew Pascucci, to the Business Development team as the Cybersecurity Practice Manager. With the ever increasing cyber threats, like the most recent Petya and Wannacry attacks, businesses need to stay alert and be protected. CCSI's focus is on helping firms understand the practical business implications of emerging technologies. Pascucci will be instrumental in continuing this practice by advancing our layered security practice and cybersecurity solution for CCSI clients.

Pascucci will utilize our key partnerships along with our 24x7x365 NOC/MSSP located at CCSI's headquarters, to provide our clients with the best approach to limit their organizations vulnerabilities and secure their future. "I'm excited to be working for a company that's focused on bringing security to their clients in a strategic and dedicated way. CCSI is ready to assist and guide their customers through the cyber threat landscape", Matthew Pascucci said.

Pascucci holds multiple security certifications and has had the opportunity to write, speak and advise clients about cybersecurity for the past decade. In previous roles, Pascucci was a Security Architect working in manufacturing, financial, eCommerce, and healthcare industries. He runs the cybersecurity blog www.frontlinesentinel.com and can be found on Twitter via @matthewpascucci.

In addition to Pascucci's expertise, CCSI has highly certified engineers and has in-depth knowledge of best-in-class OEMs and ISVs, which gives us the flexibility to specify the best technology to drive business initiatives. We provide application-focused solutions, project management, and implementation services led by senior-level delivery consultants. We have the technical expertise as well as the professional and managed services know-how to accelerate each client's success whether it's time to market, cost and efficiency initiatives, or implementation of specific projects. For more information about CCSI cybersecurity solutions or managed services, please visit www.ccsinet.com or call 1-631-218-5200.

About CCSI

For more than 40 years, CCSI has remained on the forefront of technological innovation, navigating clients through a complete IT revolution with a focus on helping firms understand the practical business implications of emerging technologies. CCSI provides the highest quality of service in the industry for the full spectrum of technologies—from network infrastructure, managed services, IP security, IP telephony, to storage solutions.
