

DDoS Simulation and Risk Assessment

Take a Proactive Approach Against DDoS on Your Terms

Are you positive you are protected from a DDoS attack?

Distributed Denial of Service (DDoS) attacks are growing and many organizations are completely unprepared for these attacks or have had their mitigation processes adequately tested in battle. We provide tools and expertise to determine your risk posture against DDoS in a proactive manner.

Throughout our solution we perform a risk assessment against your network to determine if you're susceptible to a DDoS attack by attempting to uncover weak spots in your current infrastructure. Armed with this information we can perform a controlled DDoS simulation against your assets to detect how your infrastructure would handle an attack and/or validate how your DDoS mitigation processes react to the simulation.

At the core of this offering is our expertise of a DDoS expert who will be advising clients on their defenses against DDoS attacks. This is paired with a proprietary platform that allows CCSI to perform customizable legal DDoS simulations which follow the latest trends in DDoS attacks against your assets on your terms.

With our managed DDoS simulation CCSI is able to assist clients with preparing against DDoS attacks by testing your current DDoS mitigation capabilities. Our 24x7x365 SOC and DDoS experts are here to assist you on a customized assessment to defend against DDoS attacks in the future, by determining your current posture today.

DDoS Simulation and Risk Assessment Benefits

- ↔ Reconnaissance
- ↗ Volumetric Attack Type
- ☁ Public Cloud Sourced
- ✈ Mapping Ingress Points
- ✍ Protocol Attack Type
- 👥 Experienced DDoS Experts
- 📊 DDoS Threat Matrix
- 📁 Application Attack Type
- 👁 Active Target Monitoring
- 📄 Executive Summary

Why CCSI?

CCSI provides the highest quality of service in the industry for the full spectrum of technologies—from containers to PCs, network infrastructures, managed services, IP telephony, cybersecurity, cloud services, SDWAN, to storage solutions. We provide architecture with innovation. Partner with us and discover what sets us apart from the rest.

We listen, we care, and we support. Let's Grow Together.
